

9 - 11 July Swansea UK

# MIUA 2012

Swansea University  
Prifysgol Abertawe

16th Conference on Medical Image Understanding and Analysis

**Call for Papers**  
(bursaries available)

## 16TH MEDICAL IMAGE UNDERSTANDING AND ANALYSIS

**MIUA is the principal UK forum for communicating research progress within the community interested in image analysis applied to medicine and biological science; a successful series begun in Oxford in 1997.**

MIUA is designed for the dissemination and discussion of research in medical image understanding and analysis, an expanding area in which significant advances are currently being made. It is an area notable for the range of research communities involved, and the meeting aims to encourage the growth and raise the profile of this multi-disciplinary field by bringing together the various communities.

MIUA 2012 is a single-track conference with oral and poster presentations. All accepted contributions will be published and the full proceedings will be available to delegates at the conference. Selected papers are invited to be published in the on-line journal *Annals of the BMVA*. Prizes will be awarded for the best

papers. Bursaries covering registration and accommodation are available for the best accepted student papers.

This 16th edition will be hosted in Swansea University, which has a beautiful seaside campus. This edition has a half day conference tutorial, which is particularly beneficial to research students and early career researchers working in the field.

Keynote speakers:

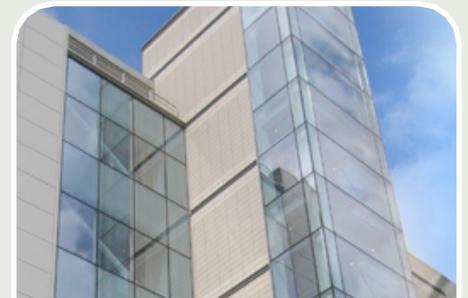

**Prof. Alison Noble**  
*Oxford University, UK*

**Prof. Ge Wang**  
*Virginia Tech, USA*

**Prof. Daniel Alexander**  
*UCL, UK*

Tutorial speaker:

**Prof. Nikos Komodakis**  
*University of Crete, Greece*

### Important dates

**Paper submission: 30 March**  
Challenge abstract: 30 March  
Author notification: 7 May  
Conference tutorial: 9 July  
Main conference: 10-11 July

### Conference Chair

Xianghua Xie  
Swansea University, UK
